

**BOARD OF SECONDARY EDUCATION, MANIPUR  
IMPHAL**

**GUIDELINES FOR ASSESSMENT/ EVALUATION MODALITY FOR THE H.S.L.C.  
EXAMINATION, 2021**

**1. Background:**

In pursuance of the convey letter No.MISC5-10/2/2021-EDN(S)-EDN(S) dated the 16<sup>th</sup> June, 2021 of the Government of Manipur Secretariat: Education (S) Department on cancellation of the High School Leaving Certificate Examination, 2021, and also in view of the uncertain conditions due to Covid-19 pandemic and the feedback obtained from various Stakeholders, the Board of Secondary Education Manipur had issued a notification for cancellation of the H.S.L.C. Examination, 2021 vide its Notification no. Ex/62/71(Vol-I)pt dated the 16<sup>th</sup> June, 2021. As the H.S.L.C. Examination, 2021 stands cancelled :

- (a) Results of H.S.L.C. Examination, 2021 shall be prepared on the basis of Class IX Promotion Examination conducted by the Schools and Class X Periodic Tests and Term Tests conducted by Schools,
- (b) Any candidate who is not satisfied with the marks allocated will be given an opportunity to appear in an Examination as and when the conditions are conducive to hold the examination conducted by the BSEM.

**2. Objectives of the Policy are :**

- (i) Developing an unbiased and transparent academic record based on realistic evaluation of academic performance of students is the important objective before all of us.
- (ii) Four key principles of any evaluation namely reliability, fairness, flexibility and validity should be followed during the evaluation process.
- (iii) To make sure that the assessment is fair, valid and reliable, Head of the Schools and Teachers should ensure that the evaluation process as layout below is clearly understood by all stakeholders.

- 3. Procedure for Assessment of students:** For each student, the maximum marks to be assessed for each subject is 100. Out of this 100 marks, 20 marks are for Internal Assessment and 80 marks for year end BSEM examination.

- a) The Internal Assessment for 20 marks will be as per existing policy of Continuous and Comprehensive Evaluation. Now all Schools have already uploaded their data (Internal Assessment marks) on the BSEM portal.
- b) Keeping in view the cancellation of the H.S.L.C. Examination, 2021, the assessment of 80 marks shall be done by Schools.

**For evaluation of the H.S.L.C. Examination, 2021, the following parameters shall be considered in the scheme of evaluation of the H.S.L.C. Examination, 2021.**

- i) The marks should be in consonance with the best past performance in the Previous three years of the Schools in the H.S.L.C. Examination. In case data of a School for only two years is available, then the best performance out of two years will be taken as reference year. And in case data is available for only one year, then the same will be taken as reference year.

In Schools where the students are appearing the H.S.L.C. Examination conducted by the BSEM for the first time and hence have no historical data available, the BSEM will provide the subject-wise average marks obtained during the last two years for the concerned district and the category of School (Government, Aided, Private) and Schools may choose the best one as reference year.

- ii) **30 out of 80 marks based on the marks scored by candidates in the Class IX Promotion Examination, 2019 conducted by the Schools from which the students passed Class IX.**

In every School, final year examination is conducted in Class IX for promotion to Class X. From the result of this examination, maximum of 30 out of 80 marks (External marks only) based on the performance of students may be carried forward subjectwise for consideration as external marks of the H.S.L.C. Examination, 2021.

For example, if a student scores 56 in MM, 40 in English, 48 in Maths, 50 in Science, 56 in Social Science and 64 in Home Science out of 80 marks(External marks only) then, subjectwise marks to be considered from Class IX promotion examination for the H.S.L.C. Examination 2021 are :

$$\text{MM} = (56/80) \times 30 = 21$$

$$\text{English} = (40/80) \times 30 = 15$$

$$\text{Maths} = (48/80) \times 30 = 18$$

$$\text{Science} = (50/80) \times 30 = 6.25 \times 3 = 18.75 = 19$$

$$\text{Social Science} = (56/80) \times 30 = 21$$

$$\text{Home Science} = (64/80) \times 30 = 24$$

- iii) 50 out of 80 marks based on the marks scored by candidates in different Periodic Tests and Term Tests of Class X conducted by Schools during the academic year, 2020 – 2021.

Subject	Mark scored in Periodic Tests : out of $(20*4)=80$ marks	Mark scored in Term Tests : out of $50*2=100$ marks	Total mark scored (Periodic Test + Term Tests) out of 180 marks	Mark scored out of 50 marks
MIL	$M1=m1+m2+m3+m4$	$M2=t1+t2$	$M=M1+M2$	$(M/180)*50$
Eng	$M1=m1+m2+m3+m4$	$M2=t1+t2$	$M=M1+M2$	$(M/180)*50$
Maths	$M1=m1+m2+m3+m4$	$M2=t1+t2$	$M=M1+M2$	$(M/180)*50$
Sc	$M1=m1+m2+m3+m4$	$M2=t1+t2$	$M=M1+M2$	$(M/180)*50$
SSc	$M1=m1+m2+m3+m4$	$M2=t1+t2$	$M=M1+M2$	$(M/180)*50$
HSC	$M1=m1+m2+m3+m4$	$M2=t1+t2$	$M=M1+M2$	$(M/180)*50$

m1 - mark obtained in Periodic Test 1

m2 - mark obtained in Periodic Test 2

m3 - mark obtained in Periodic Test 3

m4 - mark obtained in Periodic Test 4

t1 - mark obtained in Term test 1

t2 - mark obtained in Term test 2

**However, for the H.S.L.C. Examination, 2021, out of the above Periodic Tests and Term Tests, the Schools shall select only 1(one) Periodic Test in which the student scores highest mark and only 1(one) Term Test in which the student scores highest mark.**

If a student scores 49 in MM, 63 in English, 56 in Maths, 49 in Science, 63 in Social Science and 60 in Home Science in the best 1(one) Periodic Test and 1 (one) Term Test, out of 70 marks, then, subjectwise external marks to be considered for the H.S.L.C. Examination 2021 are :

$$\text{MM} = (49/70) \times 50 = 35$$

$$\text{English} = (63/70) \times 50 = 45$$

$$\text{Maths} = (56/70) \times 50 = 40$$

$$\text{Science} = (49/70) \times 50 = 35$$

$$\text{Social Science} = (63/70) \times 50 = 45$$

$$\text{Home Science} = (60/70) \times 50 = 42.85 = 43$$

- c) If any candidate has not appeared in any of the assessments conducted by the Schools, the Schools may conduct at least one Periodic Test and one Term Test in offline/ online or telephonic mode for assessment and record documentary evidences

to certify the recommendations. The student may be assessed objectively on that basis by the Schools out of maximum marks of each subject.

**d) Evaluation of External Candidates:**

As done in the H.S.L.C. Compartmental Examination, 2020, marks that shall be given to External students may be as follows:

- i) **External Candidates appearing in full subjects (FM – 80 and PM – 20):** For these students, 25 marks will be given to only subjects getting less than 25 marks in the latest H.S.L.C. Examination and previous marks will be carried forward for subjects getting more than 25 in the latest previous year's H.S.L.C. Examination appeared by the candidate.
- ii) **External Candidates appearing in some subjects only (FM – 80 and PM – 20):** For these students, 25 marks will be given to the subjects in which the students are appearing.
- iii) **For subjects having FM – 48 and PM – 12, 15** marks will be given to the subjects in which the students are appearing.
- iv) **For subjects having FM – 32 and PM – 8, 10** marks will be given to the subjects in which the students are appearing.

4. Those who are not satisfied with the marks allocated to them on the above basis will be given an opportunity to sit the H.S.L.C. Exam, 2021 to be conducted by BSEM as and when the conditions are conducive to hold the Examination. If such conditions/cases arise, original marksheet issued by the BSEM should be surrendered at the time of filling up of forms for the examination and their Marksheets will be cancelled. A new Marksheet will be issued by the BSEM after declaration of the examination.

**5. Assessment Standardisation:**

For ensuring standardisation of marks allocated at School level, each School will have to internally moderate the marks to account for the School level variation by using a reliable reference standard.

- a) **Historical past performance of the Schools, in terms of best overall performance in the last 3 consecutive years in the H.S.L.C. Examination conducted by the BSEM will be taken as reference for moderating the marks assessed by the Schools for H.S.L.C. Examination, 2021.**

For example, overall pass percentage of a School is 65%, 70% and 68% in the year 2018, 2019 and 2020 respectively. Then, in this case, the reference year will be 2019 as the pass percentage was the highest. Then the School will look at its subjectwise average

mark obtained and use the average mark for the subject as moderation of the score of the subject. (Demonstration of calculation of average mark is shown in **Annexure – I**)

- b) Subject-wise marks assessed by Schools should be within the range of  $\pm 2$  marks obtained by the Schools in the reference year.
- c) If pass percentages of a School are nil in the past three consecutive years of H.S.L.C. Examination, then the School shall assess the students between 20 to 25 marks in all the subjects.
- d) Once the Result Committee finalizes the marks on the basis of Class IX Promotion Examination conducted by Schools in the year 2019 and Class X Periodic Tests and Term Tests, it has to ensure that the marks of students are aligned with the subject-wise average marks provided by the BSEM.
- e) To facilitate the Schools, the BSEM will prepare an online system in which Schools can enter the marks and check whether the marks allocated are in conformity with the historical distribution. In case there is a mismatch, then the Result Committee shall have to revise the marks, as the case may be, and it should also be documented in the format as required.

- 6. Constitution of Result Committee:** Each School shall form a Result Committee with the Principal/Headmaster/Headmistress as the Chairperson and five teachers of the School teaching Mathematics, Social Science, Science and two languages in Class X as Internal Members. One teacher teaching Class X in any neighbouring School will be nominated by the ZEO concerned as an External Member of the Committee. While nominating the External Members, there shall not be interchange of teachers as Committee Member(s) between two Schools. Ward(s) of the committee members should not be appearing the H.S.L.C. Examination, 2021 from the same School. Rules for the constitution of the Committee are given at (**Annexure – II**).

**The Chairperson and the External teachers will be paid a total of fixed honorarium of Rs. 2,500/- per person by the BSEM and Rs.1,500/- per person for internal teachers.**

- 7. Recording of Evidence and Assessment:** As done in the the preparation/ documentation of Internal Assessment Marks, each School shall prepare marks obtained by each student in Class IX promotion examination and Class X Periodic Tests and Term Tests and then calculate the mark scored by the student out of 80 marks.

**8. Safe keeping of Records:**

All Schools will seal the records of the students along with the Rationale Document (**Annexure-III**) under the signature of all members of the Committee and these should be kept in safe custody of the Head of the Institution/ Schools for subsequent verification.

**9. Verification of Records by BSEM:**

The BSEM may depute a team to verify the documents and the process of allocating marks uploaded to ensure correctness of the same. A check on the basis of data uploaded by each School will also be done by the BSEM and all Schools identified based on the analysis, would be asked to submit their record to the BSEM and these documents will also be verified by a team of experts deputed by BSEM.

**10. Action against Non-Compliance:**

If the BSEM detects any cases where the Schools deliberately indulge in practices that are not consistent with fair, unbiased and objective practices of assessment, the BSEM reserves the right to :

- a) Start derecognition proceedings and /or
- b) Impose a proper/ suitable penalty against the Schools or
- c) Decide not to declare the result of H.S.L.C. Examination , 2021 for the Schools till the time it is not in conformity with the guidelines of BSEM.

**11. Data once uploaded will be final:**

Data of external assessment once filled by the Schools shall be considered final. No request for correction of marks because of wrong entry or mistake of any sort will be allowed. Hence, due care should be taken while uploading all marks on the part of the Schools .

**12. Grace Marks by the BSEM:**

The BSEM will compute the result based on uploaded theory and internal assessment marks. The internal assessment marks are already uploaded during the time of online form submission. At the time of computation of result, BSEM's policy of awarding grace marks to external theory marks may also be applied to those candidates who do not meet the qualifying criterion.

13. List of position holders, subjectwise toppers, will not be declared for the H.S.L.C. Examination, 2021. All the successful candidates of the H.S.L.C. Examination, 2021 will be declared divisionwise.

**14. Policy of Verification of Marks/Providing Photocopy of Answer Book/ Re-evaluation :**

As assessment has been done by the Schools, process of verification of marks, providing photocopy and re-evaluation scheme will not be applicable for the H.S.L.C. Examination 2021.

**15. A timeline/ Schedule of Assessment/ Evaluation activities is as under :**

**TIME SCHEDULE**

Sl. No.	Activity	Last Date*
1	Awareness programme for teachers regarding the Guidelines given by BSEM	30.06.2021
2	Formation of Result Committee by School	03.07.2021
3	Provision of subject wise, School wise distribution of marks as per previous Board exams by BSEM	05.07.2021
4	Conduct of assessment, if any	12.07.2021
5	Finalisation of Rationale Document	17.07.2021
6	Availability of Portal for uploading of marks	18.07.2021
7	Finalization of result by Schools	20.07.2021
8	Checking & moderation of marks by Schools	23.07.2021
9	Submission of marks to BSEM's Portal	26.07.2021
10	Declaration of result by BSEM	31.07.2021

\* Schools should not wait for last date to complete an activity. Based on the number of students in Class-X, they may complete activity earlier also. This may please be noted that in no case last dates will be extended.

**16. Communication: For any clarification, confirmation, if any, please contact us through our WhatsApp number 9089491819 or email id *bosemcare@gmail.com*.**

**17. Claims and Objections, if any, regarding the guidelines for Assessment/ Evaluation Modality for the H.S.L.C. Examination, 2021 shall be entertained within 48 hours of the publication of this notification. However, the decision of the BSEM will be final.**

18. **FAQ :**

<b>Sl. No.</b>	<b>Question</b>	<b>Reply</b>
<b>1</b>	My School's reference year is H.S.L.C. Examination 2019. In this year, students offered Manipuri, Addl Eng, Hindi as MIL Subjects. Shall I calculate different average marks for different subjects and choose different maximum marks for each subjects ?	All languages recognized by the BSEM is treated as MIL subjects and average marks should be calculated by clubbing all the MIL subjects. Maximum mark among the MIL subjects will be treated as maximum mark of the reference year. Same rule is to be followed in the optional subjects also.
<b>2</b>	My School's reference year is H.S.L.C. Examination 2019. I have allotted marks in English subject by strictly following the rules given by the BSEM. (30 marks from class IX exam and 50 marks from Class X) But, average mark is out of the range of the reference year. What to do now ?	Average mark should be within the range of the average mark in reference year. It is compulsory and mandatory rule. So, Schools may modify marks and re-allot by referring the previous performance of the students so that average mark may strictly come to the range of the average mark in the reference year.

<p><b>3</b></p>	<p>I cannot see all the roll numbers allotted to my students in the portal.</p>	<p>Schools may see only regular students in the portal. External students are excluded from the list and allocation of marks for external students will be done by the BSEM in a systematic rule framed by the BSEM.</p> <p><b>Rule is :</b></p> <p>For an external student who has to appear in full subjects :</p> <ul style="list-style-type: none"> <li>(i) For subjects having marks more than 25 in the latest previous year H.S.L.C. Examination appeared by the student will be carried forwarded in the H.S.L.C. Examination 2021.</li> <li>(ii) For subjects having marks less than or equal to 25 in the latest previous year H.S.L.C. Examination appeared by the student, then 25 mark will be given for the subject in the H.S.L.C. Examination, 2021.</li> </ul> <p>For external students who are to appear in failed subjects only, then 25 mark will be given for the subject(s) to be appeared in the H.S.L.C. Examination, 2021.</p>
-----------------	---	---

- (1) For subjects having full mark 80, pass mark of each subject in external mark is 20.  
 (2) Select only students of the reference year who scored greater than or equal to 20 in the particular subject.

For example, in a school, there are 5 students in the particular reference year. They scored 16, 25, 39, 56, and 60 in Mathematics subject.

So, no. of students who scored greater than or equal to 20 = 4

Average mark of Mathematics =  $(25+39+56+60)/4 = 45$

Maximum marks of Mathematics in the reference year = 60

- (3) Thus, for mark assessment of Mathematics subject of that school for H.S.L.C. Examination 2021, school can award maximum mark  $60 \pm 2$  and has to distribute the marks in the range 20 to 62, so that the average marks of the students in Mathematics should be in the range  $45 \pm 2$  (i.e. 43 to 47).

For example, if the school has 8 students in the H.S.L.C. Examination 2021, then school can award marks like 23, 33, 45, 50, 52, 56, 57, 60 so that

Average =  $(23+33+45+50+52+56+57+60)/8 = 47$  which is in the range of  $45 \pm 2$ .

*(Minimum mark should be 20 and maximum mark should be 62 for the Mathematics subject)*

N.B.: (i) If average mark is having fraction, then the next higher integer will be average mark of the subject.

(ii) If average mark is less than 20 then 20 will be average mark of the subject. In that case, minimum marks allotted should be 20 and variation range will be +2 only.

- (4) Similarly, if the students scored 12, 17, 42, 66, and 70 in Science subject. Then

No. of students who scored greater than or equal to 20 = 3

Average mark of Science =  $(42+66+70) / 3 = 59.33 \sim 60$

So, average mark of the Science subject is 60.

Maximum mark of the Science in the reference year = 70

- (5) Thus, for mark assessment of Science subject of that school for H.S.L.C. Examination 2021, School can award maximum mark  $70 \pm 2$  and has to distribute the marks in the range 20 to 72 so that the average marks of the students in Science should be in the range  $60 \pm 2$  (i.e. 58 to 62)

For example, if the school has 8 students in the H.S.L.C. Examination 2021, then School can award marks like 40, 45, 56, 60, 63, 68, 70, 70 so that

Average =  $(40+45+56+60+63+68+70+70) / 8 = 59$  which is in the range of  $60 \pm 2$ .

*(Minimum mark should be 20 and Maximum mark should be 72 for the Science subject)*

**(6) For subjects having practical mark i.e. theory full mark – 48 and practical full mark – 32, pass mark of theory is 12 and pass mark of practical is 8.**

**So, school has to divide the total mark allotted to the students into two parts i.e. theory parts and practical parts in such a rule that theory marks should be greater than or equal to 12 and practical marks should be greater than or equal to 8.**

**e.g. If there are 3 students who opted additional subjects having practical and they are awarded total external marks as 32, 35 and 50 then**

**32 can be written as theory – 20, practical – 12**

**Similarly, 35 can be written as theory – 22, practical – 13.**

**RULES FOR CONSTITUTION OF COMMITTEE, THEIR ROLE AND RESPONSIBILITIES**

**RULES FOR CONSTITUTION OF COMMITTEE :**

Constitution of the Result Committee for finalizing the results would be as follows :-

1. Principal/Headmaster/Headmistress of the School would be Chairperson of the Result Committee.
2. Five teachers from the School teaching the subject and well aware about the academic performance of the students. These teachers will be from the subjects Mathematics, Social Science, Science and two languages.
3. One teacher teaching Class X in any neighbouring School will be nominated by the ZEO concerned as an External Member of the Committee. While nominating the teacher, the following should be strictly ensured for the fairness of the result :
  - a) Teacher should be teaching Class X in the neighbouring School affiliated to BSEM.
  - b) No interchange of teachers as Committee Members between two Schools.
  - c) Teacher should not be from the same management Schools.
  - d) Teacher should not be from the school where the Principal/Headmaster /Headmistress is the Co-opted member in the Management/ School Committee.
  - e) Any other relationship which may influence the result of the School/ student.
4. Ward(s) of the Committee Members should not be appearing the H.S.L.C. Examination from the same School.

**ROLES AND RESPONSIBILITIES OF THE COMMITTEE:**

Following are the Roles and Responsibilities of the Result Committee:-

1. Role of the Committee in the pandemic situation is to deliver fair and unbiased results.
2. Committee can justify its Roles and Responsibilities only when the members are well acquainted with the policy. Therefore, all Committee Members should familiarize themselves with the details of the Policy. They should also have discussions among themselves to arrive at a common understanding.
3. A Committee may discuss with another Committee, in case a need arises to clarify doubts.
4. Once a Committee is well acquainted with the Policy, they will take the stock of the ground realities in the school and frame the rationale for assessment. Thereafter, they may finalise the plan for completion of the tasks.
5. Committee can make its own schedule based on the schedule provided by BSEM.

- 6. If required, opinion of other subject teachers may also be obtained by the Committee.**
- 7. Everyday proceedings should be recorded in Rationale document by the Committee.**
- 8. Committee will keep all the proceedings confidential.**
- 9. Chairperson of the Committee will provide entire necessary infrastructure, assistance and make arrangements for correct uploading of data.**
- 10. External Committee members will also be acting as public representatives to ensure that fair result is being prepared. They will also actively participate in all activities and decisions.**

**In a nut shell, it is the sole responsibility of the committee to prepare fair and unbiased results of the students. Therefore, the Committee is fully competent to take any justified decision in writing looking into the ground realities.**

**RATIONALE DOCUMENT  
CLASS IX AND X**

**A. SCHOOL DETAILS :**

Name of School : .....

Address : .....

School Code : .....

Recognition No. : .....

**B. EXAM CONDUCTED :**

- i) Class IX – 30 marks are to be considered from Class IX Final Exam conducted by schools.

Sl. No.	Name of Exam Conducted	Total Marks	Mark to be considered out of 80
1	Final Exam conducted by schools in Class IX	80 (without internal marks)	30

Records of Class IX students: Marks scored out of 30 marks.
